

AWARDS FOR ALL GRANT

'Friends of the Charlotte Dundas' are pleased to announce that they have received a grant of £5,550 from Awards for All Scotland. This project is part of a wider capital project to establish a Canal Heritage Trail, from the east end of the Forth and Clyde Canal. The grant will allow architects to develop the concept definition study detailing the trail information panels, signage, seating and an exhibit at Lock 1 commemorating the Charlotte Dundas and all those associated with it. The area will be landscaped in keeping with the natural environment.

The study will involve site visits, meetings with the local authority/ steering group/ project team, public consultation, interpretation of the concept design, specification drawings, artist's impression of the trail, computer modelling and the exhibit at Lock 1. The study will support planning applications and design approvals from the Trail stakeholders.
